SUMMARY

Proficient Flutter developer with over a year of experience in creating complex, high-performance mobile applications. Skilled in using advanced architectural patterns and building multi-flavored apps to meet diverse user needs. Passionate about delivering user-centric solutions through efficient code and optimized performance.

PROFESSIONAL EXPERIENCE

TechSwivel Pvt. Ltd, Lahore   **August 2023 - Present**

- Developed and maintained complex features for cross-platform mobile applications using Flutter
- Implemented efficient state management solutions using BLOC architecture for large-scale applications
- Designed and built multi-flavored apps catering to diverse user needs and environments
- Integrated various data sources including Firebase and REST APIs using Dio and Retrofit
- Optimized Flutter code for performance and responsiveness, ensuring a smooth user experience
- Collaborated effectively with cross-functional teams (designers, backend developers) throughout the development cycle
- Contributed to code reviews and maintained high coding standards

PROJECTS

iEternity   **Dec 2023 - April 2024**

Iternity is a social media platform where users can share their stories and thoughts through audio, video, and text. Similar to Instagram, Iternity enables users to connect by sending connection requests and messages, fostering deeper interactions and community engagement.

Swoop   **April 2024 - July 2024**

SWOOP is a dating app designed to help users find compatible partners through a sophisticated matching system. Users can create profiles, browse potential matches, and connect with others based on shared interests and preferences. SWOOP aims to make the search for meaningful relationships seamless and personalized.

FoodCritic   **July 2024 - Present**

FoodCritic is a food-focused video-sharing platform designed to connect food enthusiasts through short, engaging videos. Similar to TikTok, FoodCritic allows users to discover, share, and interact with content exclusively related to food, whether it's cooking tutorials, restaurant reviews, or food challenges.

Flutter Quiz Competion App   **Dec 2022 - Feb 2023**

Created a simple quiz competition app using flutter where students can fill and submit form. Form data is inserted successfully into firebase and can also be deleted and updated.

SKILLS

Flutter, Dart, Git, Retrofit, Dio, API Integration, BitBucket, Firebase, BLoC State Management, Provider, MultiFlavored Apps,

EDUCATION

Bechalors In Software Engineeering , University of Lahore   **Sep 2019 - March 2023**

PROFESSIONAL SKILLS

- **Mobile App Development:** Expertise in developing and maintaining high-performance crossplatform mobile applications using Flutter.
- **State Management:** Proficient in implementing BLoC architecture for efficient state management in large-scale applications.
- **API Integration:** Skilled in integrating various data sources including REST APIs using Dio and Retrofit.
- **Performance Optimization:** Strong ability to optimize code for performance and responsiveness.
- **Collaboration:** Effective collaboration with cross-functional teams including designers and backend developers.
- **Code Quality:** Commitment to maintaining high coding standards through code reviews and best practices.
- **UI/UX Design:** Ability to design intuitive and user-friendly interfaces that enhance user experience.
- **Project Management:** Experience in managing project timelines, ensuring timely delivery and meeting project requirements.
- **Problem Solving:** Strong analytical and problem-solving skills to troubleshoot and resolve complex issues in mobile applications.
- **Continuous Learning:** Dedicated to staying updated with the latest industry trends and technologies to continually improve skills and knowledge

PROFESSIONAL GOALS

- To continually enhance my skills in mobile app development, specifically focusing on the Flutter framework.
- To lead projects that push the boundaries of what mobile applications can achieve, ensuring high performance and user satisfaction.
- To contribute to open-source projects and stay updated with the latest industry trends and technologies.
- To learn Swift and expand my expertise to include iOS native app development in the near future.
- To develop and publish my own mobile applications, focusing on innovative solutions that address real-world problems.
- To mentor and guide junior developers, sharing knowledge and fostering a collaborative learning environment.
